

The City of Kenmore

18120 68TH AVENUE NE PO Box 82607
KENMORE, WASHINGTON 98028

MEMO

TO: Comprehensive Plan & Development Regulation Amendment Applicants

FROM: Debbie Bent, Community Development Director 

DATE: October 28, 2013

SUBJECT: Comprehensive Plan and Development Regulation Amendment Applications

Each year the city's comprehensive plan and development regulations may be amended by the Kenmore City Council. For the 2014 amendments, applications must be submitted to the City of Kenmore by **December 2, 2013 at 4:30 p.m.**

The attached information includes an application form, submittal checklist and a SEPA Checklist. The pre-screening / threshold review fee is \$200.00. An applicant whose amendment proposal is approved by the City Council for consideration during the 2013 Amendment Process pursuant to KMC 19.20.060(D) shall pay an additional fee of \$400.00 to cover the cost of processing, review and analysis of their amendment proposal. A fee waiver request may be granted in the following cases: requests involving a topic of a city-wide nature; or a neighborhood wide request; a request made by a nonprofit organization when involving more than one property; or city-sponsored proposals. Fee waivers are not allowed for site-specific comprehensive land use amendments.

Applications are evaluated for compliance with the Kenmore Municipal Code, Kenmore Comprehensive Plan and the State Growth Management Act (GMA). Applications will be reviewed by City Staff and forwarded to the City Council. The City Council will review the applications and determine which applications will be reviewed by the Planning Commission, which applications will be delayed to the next amendment cycle and which applications will not be considered. Those applications accepted for further review will be forwarded on to the Planning Commission who will hold a public hearing on the proposed amendments. The Planning Commission will then make a recommendation to the City Council, which is the final decision making body.

Please contact the Community Development Department at (425) 398-8900 or email Lauri Anderson at landerson@kenmorewa.gov if you have further questions.

COMPREHENSIVE PLAN & DEVELOPMENT REGULATION AMENDMENT APPLICATION

Application Deadline - December 2, 2013 4:30 PM

Intake Date: _____

APPLICANT:

Name: _____	Phone: _____
Street Address: _____	Fax: _____
City/State/Zip: _____	Email: _____

CONTACT:

Name: _____	Phone: _____
Street Address: _____	Fax: _____
City/State/Zip: _____	Email: _____

PROPERTY OWNER (for site specific comprehensive plan amendment only):

Name: _____	Phone: _____
Street Address: _____	Fax: _____
City/State/Zip: _____	Email: _____

Comprehensive Plan Section to be Amended (Fee \$200): _____

Development Regulation Section to be Amended (Fee \$200): _____

Site Specific Comprehensive Plan Amendment Information (Fee \$200): _____

Property Address: _____

Parcel Number(s): _____

Property Size: _____

Existing Use(s) on Site: _____

Adjacent Land Uses: _____

Existing Comprehensive Plan Designation: _____ Existing Zoning Designation: _____

Proposed Comprehensive Plan Designation: _____ Proposed Zoning Designation: _____

I certify that all of the information submitted in this application including any supplemental information is true and complete to the best of my knowledge. I have read the application in its entirety and understand that my submittal will be reviewed for completeness and if found to be complete will be processed in accordance with KMC Title 19.

Signature: _____ Date: _____

Signature: _____ Date: _____

CITY OF KENMORE COMPREHENSIVE PLAN & DEVELOPMENT REGULATION AMENDMENT CHECKLIST

This checklist identifies the minimum requirements for the City of Kenmore to accept the application. Unless one or more of the submittal requirements outlined in KMC 19.20.070(A) is waived by the Director of Community Development, then an application that does not contain all of the submittal requirements so enumerated by the deadline set forth in KMC 19.20.060(B) shall be considered incomplete and ineligible for consideration in the annual amendment cycle.

APPLICANT: Please check each box under the applicant heading on this checklist to confirm items included in your submittal. City staff will check off each box under staff when the item is confirmed to be included in the submittal package. Please submit the number of copies of each item requested below.

SUBMITTAL REQUIREMENTS - see below for number of copies

Appl Staff

- Amendment Application Form (5 copies);
- SEPA Checklist (5 copies);
- Narrative clearly stating the proposal and what the amendment is attempting to accomplish (5 copies);
- Narrative indicating how the proposed amendment meets the criteria outlined in KMC 19.20.080 and 19.20.090 (5 copies);
- Additional Documents (5 sets) Photographs, sections, petitions, letters of support which may explain your request, sketches, etc., that may support your application.
- Pre-screening / Threshold Review Fee \$200.00 – Applicants whose amendment proposals approved by the City Council pursuant to KMC 19.20.060(D) shall pay a fee of \$400.00 to cover the cost of processing, review and analysis of their amendment proposal.

ADDITIONAL SUBMITTAL REQUIREMENTS IF PROPOSAL IS A SITE SPECIFIC COMPREHENSIVE PLAN AMENDMENT:

Appl Staff

- Sworn Statement (5 copies);
- Legal Description (5 copies);
- Certificate of Water Availability (5 copies);
- Certificate of Sewer Availability (5 copies);
- Proof of Legal Lot per KMC 17.15.070 (5 copies);
- Address labels of property owners within 1000 feet of the subject property (3 sets);

Appl Staff

Site Plan must be drawn to scale and include the following:

- north arrow
- property address
- parcel number(s)
- existing land use designation
- proposed land use designation
- zoning designation
- property lines
- size of property (in square feet or acres)
- critical areas located on site or on adjacent sites
- location and name of existing streets
- location of existing easements
- existing uses on-site
- existing uses on properties immediately adjacent to the site

Vicinity Map drawn to scale clearly showing the subject site and its surroundings

ENVIRONMENTAL CHECKLIST

Purpose of checklist:

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions for applicants:

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Use of checklist for non-project proposals:

Complete this checklist for non-project proposals, even though questions may be answered "does not apply." IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NON-PROJECT ACTIONS (part D).

For non-project actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

A. BACKGROUND

1. Name of proposed project, if applicable:
2. Name of applicant:
3. Address and phone number of applicant and contact person:
4. Date checklist prepared:
5. Agency requesting checklist:
6. Proposed timing or schedule (including phasing, if applicable):
7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.
8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.
9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.
10. List any government approvals or permits that will be needed for your proposal, if known.
11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)
12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

B. ENVIRONMENTAL ELEMENTS

1. Earth

a. General description of the site (circle one): Flat, rolling, hilly, steep slopes, mountainous, other

b. What is the steepest slope on the site (approximate percent slope)?

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill.

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

2. Air

a. What types of emissions to the air would result from the proposal (i.e., dust, automobile, odors, industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

c. Proposed measures to reduce or control emissions or other impacts to air, if any:

3. Water**a. Surface:**

- 1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

- 2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

- 3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

- 4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

- 5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

- 6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

b. Ground:

- 1) Will ground water be withdrawn, or will water be discharged to ground water? Give general description, purpose, and approximate quantities if known.

- 2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals. . . ; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

c. Water runoff (including stormwater):

- 1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

- 2) Could waste materials enter ground or surface waters? If so, generally describe.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

4. Plants

a. Check or circle types of vegetation found on the site:

- _____ deciduous tree: alder, maple, aspen, other
- _____ evergreen tree: fir, cedar, pine, other
- _____ shrubs
- _____ grass
- _____ pasture
- _____ crop or grain
- _____ wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- _____ water plants: water lily, eelgrass, milfoil, other
- _____ other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

c. List threatened or endangered species known to be on or near the site.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

5. Animals

a. Circle any birds and animals which have been observed on or near the site or are known to be on or near the site:

birds: hawk, heron, eagle, songbirds, other:

mammals: deer, bear, elk, beaver, other:

fish: bass, salmon, trout, herring, shellfish, other:

b. List any threatened or endangered species known to be on or near the site.

c. Is the site part of a migration route? If so, explain.

d. Proposed measures to preserve or enhance wildlife, if any:

6. Energy and natural resources

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

7. Environmental health

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe.

1) Describe special emergency services that might be required.

2) Proposed measures to reduce or control environmental health hazards, if any:

b. Noise

1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

3) Proposed measures to reduce or control noise impacts, if any:

9. Housing

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

- c. Proposed measures to reduce or control housing impacts, if any:

10. Aesthetics

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

- b. What views in the immediate vicinity would be altered or obstructed?

- c. Proposed measures to reduce or control aesthetic impacts, if any:

11. Light and glare

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

- c. What existing off-site sources of light or glare may affect your proposal?

- d. Proposed measures to reduce or control light and glare impacts, if any:

12. Recreation

- a. What designated and informal recreational opportunities are in the immediate vicinity?

- b. Would the proposed project displace any existing recreational uses? If so, describe.

- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

13. Historic and cultural preservation

- a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.

- b. Generally describe any landmarks or evidence of historic, archaeological, scientific, or cultural importance known to be on or next to the site.

- c. Proposed measures to reduce or control impacts, if any:

14. Transportation

- a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.

- b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?

- c. How many parking spaces would the completed project have? How many would the project eliminate?

- d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).

- e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

- f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur.

- g. Proposed measures to reduce or control transportation impacts, if any:

15. Public services

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.

- b. Proposed measures to reduce or control direct impacts on public services, if any.

16. Utilities

- a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.

- b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

C. SIGNATURE

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

D. SUPPLEMENTAL SHEET FOR NON-PROJECT ACTIONS

(do not use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

Proposed measures to avoid or reduce such increases are:

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

3. How would the proposal be likely to deplete energy or natural resources?

Proposed measures to protect or conserve energy and natural resources are:

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

Proposed measures to protect such resources or to avoid or reduce impacts are:

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

Proposed measures to avoid or reduce shoreline and land use impacts are:

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

Proposed measures to reduce or respond to such demand(s) are:

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.
